Subject Index

^{99m}Tc MDP bone scanning of the clinical carpal scaptoid, 14
^{99m}Tc-SN-Pyrophosphate scintigraphy following traumatic posterior dislocation of the hip, 389
A case of aspergillus osteomyelitis complicating an open fracture of the tibia, 129
A pathological fracture of the femur through a histiocytic granuloma, 124
'A pulled muscle' Partial avulsion of the extensor indicis proprius tendon following a hyperflexion injury, 127
A radiological assessment of interprosthetic movement in the Charnley–Hastings hemiarthroplasty, 18
A simple and inexpensive external fixator, 377
A technique for transfer of patients to a fracture table, 33
Abdominal injury, pseudocyst of the spleen after closed, 297
Abduction of the leg, pelvic injuries associated with traumatic, 353
Acromioclavicular joint, inferomedial fracture dislocation of the, 211
Acromioclavicular dislocation (Tossy Stage III) using Balser's hook plate combined with ligament sutures, repair of complete, 227
Acromioclavicular disruptions: trial of a simple surgical approach, treatment of, 159
Acute bowel entrapment between two lumbar vertebrae, 449
Acute volar compartment syndrome of the forearm secondary to fractures of the distal radius, 101
Adults, external fixation and recovery of function following fractures of the distal radius in young, 235
Afghanistan, an experience of war surgery and wounds presenting after 3 days on the border of, 259
Age, overweight, sex and knee instability: their relationship to the post-traumatic osteoarthrosis of the knee joint, 105
Aircrash statistics 1977–86 for the purposes of planning disaster exercises, an analysis of civil, 384
An analysis of civil aircrash statistics 1977–86 for the purposes of planning disaster exercises, 384
An attempt at self-decapitation: case report, 115
An experience of war surgery and wounds presenting after 3 days on the border of Afghanistan, 259
An investigation of the fracture characteristics of the tibia of mature rabbits, 172
An outcome predictive score for sepsis and death following injury, 263
An unusual weightlifting injury, 446
Anal canal by a pelvic fracture, obstruction of the, 45
Anatomy of the venous foot pump, 443
Ankle instability, carbon fibre reinforcement for chronic lateral, 25
Ankle with extensor digitorum brevis transfer for chronic lateral ligament instablity, plication of the anterolateral capsule of the, 65
Ankle with rupture of the deltoid ligament, fracture–dislocation of the, 59
Ankle, immediate or delayed operative treatment of fractures of the, 436
Ankle, Evans' procedure in the treatment of chronic instability of the, 70
Arthroscopy and examination under anaesthesia in the diagnosis of fresh traumatic haemarthrosis of the knee joint, significance of, 21
Aspergillus osteomyelitis complicating an open fracture of the tibia, a case of, 129
Assault: characteristics of victims attending an inner-city hospital, 185
Avascular necrosis of the talus following apparently minor ankle trauma: a case report, 213
Avulsion of the extensor indicis proprius tendon following a hyperflexion injury, 'A pulled muscle' Partial, 127
Axillary artery thrombosis following a fracture of the neck of the humerus, 45

Balser's hook plate combined with ligament sutures, repair of complete acromioclavicular dislocation (Tossy Stage III) using, 227
Bandages, flammability of modern synthetic, 31
Bilateral simultaneous spontaneous rupture of the quadriceps tendon, 7
Bilateral stress fractures of the ulna, 360
Bilateral thoracic outlet syndrome following non-union of clavicles, associated with radio-osteodystrophy, 40
Bipolar fixation of fractures of the distal end of the radius: a comparative study, 145
Bladder and urethral injuries associated with fractures of the pelvis in Zaria, Nigeria, 357
Blood transfusion need, outcome of closed injuries exceeding 20 unit, 273
Blunt pancreatic transection treated by Roux-en-Y anastomosis, 42
Book reviews, 49, 131, 222, 299, 367, 455
Bowel entrapment between two lumbar vertebrae, acute, 449
Brachial artery caused by power take-off mechanisms, traction injuries to the, 289
Brachial plexus: an epidemic among young motorcyclists, closed traction lesions of the, 4

Carbon-fibre reinforcement for chronic lateral ankle instability, 25
Cervical spine?, is prevertebral soft tissue swelling a useful sign in injury of the, 177
Charcot joint after intertrochanteric fracture, development of a, 119
Chest injury, constructive pericarditis as a complication of closed, 39
Chest injuries, reliability of physical examination in penetrating, 407
Chylothorax following fracture of the thoracolumbar spine, 363
Clavicle treated, conservatively, recovery following fractures of the, 162
Clavicles, associated with radio-osteodystrophy, Bilateral thoracic outlet syndrome following non-union of, 40
Clinical diagnosis of ruptures of the anterior cruciate ligament: a comparison between the Lachman test and the anterior drawer sign, 427
Closed medullary nailing for recent tibial fractures, 180
Closed traction lesions of the brachial plexus: an epidemic among young motorcyclists, 4
Colles' fractures, local anaesthetic toxicity of haematoma blocks in manipulation of, 239
Combat surgery, new concepts of forward, 193
Constructive pericarditis as a complication of closed chest injury, 39
Contents of BURNS, 135, 224, 304, 458
Contents of JOURNAL OF TRAUMA, 52, 133, 303
Cruciate ligament: retrospective study, meniscal injuries with rupture of the anterior, 429
Crush syndrome complicating mast suit use, 43
Cullen's sign: a new association with central dislocation of the hip joint, 280

Darrach's procedure for complications of fractures of the distal radius, the long-term outcome following, 318
Deltoid ligament, fracture–dislocation of the ankle with rupture of the, 59
Dens – the results of non-rigid immobilization, fractures of the, 165
Development of a Charcot joint after intertrochanteric fracture, 119
Diabetic patient, multiple fractures in a young, 285
Diagnosis of vascular injury in children with supracondylar humerus fracture, 11
Diagnosis, the suspected fracture of the scaphoid: a rational approach to, 149
Diaphragmatic hernia: an unusual presentation, traumatic, 292
Diaphragmatic rupture with herniation of the kidney presenting as an uncontrolled haemothorax – a case report, right-sided, 293
Digital nerve injuries in orthopaedic surgeons, 233
Disaster exercises, an analysis of civil aircrash statistics 1977–86 for the purposes of planning, 384

Dislocation of the hip joint, Cullen's sign: a new association with central, 280
Dislocation of the elbow, transverse divergent, 279
Dislocation of the hip, ^{99m}Tc-SN-Pyrophosphate scintigraphy following traumatic posterior, 389
Dislocation of the patella, vertical intercondylar, 281
Dislocation of the radial head: a report of two cases, isolated, 405
Dislocation of the scaphoid, isolated, 405
Drawer sign, clinical diagnosis of ruptures of the anterior cruciate ligament: a comparison between the Lachman test and the anterior, 427
Dural decompression, long-term follow-up of six patients with acute spinal injury following, 397

Early osteoarthritis in young sportsmen with severe anterolateral instability of the knee, 247
Editorial, 3
Elbow joint, radial forearm flap cover of the, 287
Electrical injury, high-voltage, 364
Epicondyle of the humerus, treatment of fractures of the medial, 342
Epiphyseal fracture of the metacarpal head, 34
Evaluation of the 3M Staplizer: a new internal fixation system, 28
Evans' procedure in the treatment of chronic instability of the ankle, 70
Experience with the AO locking femoral nail, 249
Explosions, oil and petrol drum, 81
Extensor digitorum brevis transfer for chronic lateral ligament instability, plication of the anterolateral capsule of the ankle with, 65
Extensor indicis proprius tendon following a hyperflexion injury, 'a pulled muscle' Partial avulsion of the, 127
External fixation and recovery of function following fractures of the distal radius in young adults, 235
External fixation of fractures of the tibia: clinical experience of a new device, 73
External fixator, a simple and inexpensive, 377
Extradural haemorrhage: strategies for management in remote places, 307

Femoral shortening after medullary nailing, treatment of, 35
Femur – an analysis of the results of operative and non-operative management, subtrochanteric fractures of the, 169
Femur, incidence of osteomalacia in fractures of the proximal end of, 89
Femur: a prospective study compares the use of the Kuntscher-Y nail and a sliding hip screw, intertrochanteric fractures of the, 421
Femur: results of treatment of 100 patients treated by single Watson–Jones nail fixation, undisplaced fracture of the neck of the, 93
Fibrin adhesive in the repair of chondral and osteochondral injuries, the use of, 267
Fixation device, fractures of the distal femur: The role of the Zickel supracondylar, 410
Fixation of femoral head fractures using the Herbert screw, 220
Fixation system, evaluation of the 3M Staplizer: a new internal, 28
Flake fractures, ski injuries, the significance of, 79
Flammability of modern synthetic bandages, 31
Flap cover of the elbow joint, radial forearm, 287
Foot pump, anatomy of the venous, 443
Fracture characteristics of the tibia of mature rabbits, an investigation of the, 172
Fracture clinic referrals: the need for self audit, 77
Fracture of the lower leg with involvement of the posterior malleolus; a neglected combination?, 241
Fracture of the neck of the femur: results of treatment of 100 patients treated by single Watson–Jones nail fixation, undisplaced, 93
Fracture of the penis and the result of surgical management, 381
Fracture table, a technique for transfer of patients to a, 33
Fracture–dislocation of the ankle with rupture of the deltoid ligament, 59
Fracture–dislocation of the first thoracic on the second thoracic vertebrae in a schoolboy, 450
Fractures of the dens – the results of non-rigid immobilization, 165
Fractures of the distal femur: The role of the Zickel supracondylar fixation device, 410
Fractures of the distal radius in young adults, the outcome of, 97
Fractures of the femur – an analysis of the results of operative and non-operative management, subtrochanteric, 169
Fractures of the metatarsals: management of complicated injuries with a simple traction system, 345
Fractures of the proximal end of femur, incidence of osteomalacia in, 89
Fractures of the tibial plateau in Nottingham, 324

Granuloma, a pathological fracture of the femur through a histiocytic, 124
Greenstick fracture of the radius, subacute Salmonella osteomyelitis following a, 277
Guidewire centering instrument, 321

Haemarthrosis of the knee joint, significance of arthroscopy and examination under anaesthesia in the diagnosis of fresh traumatic, 21
Haematoma blocks in manipulation of Colles' fractures, local anaesthetic toxicity of, 239
Haemothorax – a case report, right-sided diaphragmatic rupture with herniation of the kidney presenting as an uncontrolled, 293
Heavy drinking and accidents – a prospective study among men of working age, 198
Hemiarthroplasty, a radiological assessment of interprosthetic movement in the Charnley–Hastings, 18
Herbert screw fixation of osteochondral fractures of the patella, 116
Herbert screw, fixation of femoral head fractures using the, 220
High-voltage electrical injury, 364
Hip prosthesis, the use of Zickel supracondylar nails in the presence of a cemented, 452
Hip, ^{99m}Tc–SN–Pyrophosphate scintigraphy following traumatic posterior dislocation of the, 389
Humeral medullary nailing – a new implant, 254
Humerus fracture, diagnosis of vascular injury in children with supracondylar, 11
Humerus, axillary artery thrombosis following a fracture of the neck of the, 45
Hungerford shooting incident, the 313

Ice skating accidents and injuries, 191
Immediate or delayed operative treatment of fractures of the ankle, 436
Incidence of osteomalacia in fractures of the proximal end of femur, 89
Inferomedial fracture dislocation of the acromioclavicular joint, 211
Injuries in attempted suicide by jumping from a height, 371
Injury in Auckland, New Zealand: an unexplored epidemic, 205
Inner-city hospital, assault: characteristics of victims attending an, 185
Instability of the ankle, Evans' procedure in the treatment of chronic, 70
Instability: their relationship to the post-traumatic osteoarthrosis of the knee joint, age, overweight, sex and knee, 105
Internal fixation of the oblique, osteoporotic fracture of the lateral malleolus, 257
Internal stabilization after external fixation of fractures of the tibia: sense or nonsense?, 432
Intertrochanteric fracture, development of a Charcot joint after, 119
Intertrochanteric femoral fractures, the timing of surgery for, 244
Intertrochanteric fractures of the femur: a prospective study compares the use of the Kuntscher-Y nail and a sliding hip screw, 421
Intradmedullary fixation of fracture of the sternum, 128
Irreducible dislocation of the subtalar joints: a report of two cases, 447
Is prevertebral soft tissue swelling a useful sign in injury of the cervical spine?, 177
Ischaemia successfully treated with intra-arterial urokinase, jellyfish sting resulting in severe hand, 294
Isolated dislocation of the radial head: a report of two cases, 125
Isolated dislocation of the scaphoid, 405

Jellyfish sting resulting in severe hand ischaemia successfully treated with intra-arterial urokinase, 294

Kuntscher-Y nail and a sliding hip screw, intertrochanteric fractures of the femur: a prospective study compares the use of the, 421
Kyphosis, operative fixation of fractures of the thoracic and lumbar vertebrae by Williams plates with reference to late, 153

Lachman test and the anterior drawer sign, clinical diagnosis of ruptures of the anterior cruciate ligament: a comparison between the, 427
Letters to the Editor, 48, 298
Local anaesthetic toxicity of haematoma blocks in manipulation of Colles' fractures, 239
Long-term follow-up of six patients with acute spinal injury following dural decompression, 397
Lumbar vertebrae, acute bowel entrapment between two, 449

Luxatio erecta – two cases without direct injury, 361

Malleolus, internal fixation of the oblique, osteoporotic fracture of the lateral, 257
Malleolus; a neglected combination?, fracture of the lower leg with involvement of the posterior, 241
Mast suit use, crush syndrome complicating, 43
Medullary nailing for recent tibial fractures, closed, 180
Medullary nailing, treatment of femoral shortening after, 35
Meniscal injuries with rupture of the anterior cruciate ligament: retrospective study, 429
Metacarpal head, epiphyseal fracture of the, 34
Metracarpophalangeal joints, unusual open injury of multiple, 339
Metatarsals: management of complicated injuries with a simple traction system, fractures of the, 345
Mimicking acute infection in the hand, ulnar artery aneurysms after injury, 402
Morbidity following isolated fractures of the sacrum, 379
Motorcyclists, closed traction lesions of the brachial plexus: an epidemic among young, 4
Multiple fractures in a young diabetic patient, 285

Neck: a retrospective study, 'whiplash injuries' of the, 393
Neuropathy of the upper limb in Lagos, pattern of peripheral traumatic, 329
New concepts of forward combat surgery, 193
Nigeria, bladder and uretheral injuries associated with fractures of the pelvis in Zaria, 357

Obstruction of the anal canal by a pelvic fracture, 45
Odontoid fractures: Preliminary report, screw fixation of, 139
Oil and petrol drum explosions, 81
Open fracture of the tibia, a case of Aspergillus osteomyelitis complicating an, 129
Open fractures and infected non-unions of the shaft of the femur, the AO tubular external fixator in the treatment of, 415
Operative fixation of fractures of the thoracic and lumbar vertebrae by Williams plates with reference to late kyphosis, 153
Orthopaedic surgeons, digital nerve injuries in, 233
Osteoarthritis in young sportsmen with severe anterolateral instability of the knee, early, 247
Osteoarthrosis of the knee joint, age, overweight, sex and knee instability: their relationship to the post-traumatic, 105
Osteochondral fractures of the patella, Herbert screw fixation of, 116
Osteomalacia in fractures of the proximal end of femur, incidence of, 89
Osteoporotic fracture of the lateral malleolus, internal fixation of the oblique, 257
Outcome of closed injuries exceeding 20 unit blood transfusion need, 273

Pancreatic transection treated by Roux-en-Y anastomosis, blunt, 42
Patella due to injury, periosteal primary resurfacing of joint surface defects of the, 216
Patella, vertical intercondylar dislocation of the, 281
Pattern of peripheral traumatic neuropathy of the upper limb in Lagos, 329
Pectoralis major in weight lifters: a case report and review of the literature, rupture of, 219
Pectoralis major muscle: a caveat, rupture of the, 282
Pectoralis major muscle: a complication, rupture of the, 284
Pelvic fracture, obstruction of the anal canal by a, 45
Pelvic injuries associated with traumatic abduction of the leg, 353
Pelvis in Zaria, Nigeria, bladder and uretheral injuries associated with fractures of the, 357
Penis and the result of surgical management, fracture of the, 381
Pericarditis as a complication of closed chest injury, constructive, 39
Periosteal primary resurfacing of joint surface defects of the patella due to injury, 216
Peritalar dislocation: a follow-up report of 21 cases, 439
Pilon fractures of the tibia: a study based on 19 cases, 109
Plica syndrome, the, 350
Plication of the anterolateral capsule of the ankle with extensor digitorum brevis transfer for chronic lateral ligament instability, 65
Power take-off mechanisms, traction injuries to the brachial artery caused by, 289
Predictive score for sepsis and death following injury, an outcome, 263
Prilocaine leakage during tourniquet inflation in intravenous regional anaesthesia: the influence of fracture manipulation, 333
Pseudocyst of the spleen after closed abdominal injury, 297

Quadriceps tendon, bilateral simultaneous spontaneous rupture of the, 7

Rabbits, an investigation of the fracture characteristics of the tibia of mature, 172
Radial forearm flap cover of the elbow joint, 287
Radial head: a report of two cases, isolated dislocation of the, 125
Radiation dosage during AO locking femoral nailing, 336
Radio-osteodystrophy, bilteral thoracic outlet syndrome following non-union of clavicles, associated, with, 40
Radiological assessment of interprosthetic movement in the Charnley-Hastings hemiarthroplasty, a, 18
Radius in young adults, the outcome of fractures of the distal, 97
Radius, acute volar compartment syndrome of the forearm secondary to fractures of the distal, 101
Radius: a comparative study, Bipolar fixation of fractures of the distal end of the, 145
Recovery following fractures of the clavicle treated conservatively, 162
Reliability of physical examination in penetrating chest injuries, 407
Renal transplant patients, spontaneous rupture of tendons in dialysis and, 86
Renal injury management: no longer controversial?, 201
Repair of complete acromioclavicular dislocation (Tossy State III) using Balser's hook plate combined with ligament sutures, 227
Resurfacing of joint surface defects of the patella due to injury, periosteal primary, 216
Right-sided diaphragmatic rupture with herniation of the kidney presenting as an uncontrolled haemothorax – a case report, 293
Rotational displacement of the lower distal epiphysis of the tibia without fracture, 209
Roux-en-Y anastomosis, blunt pancreatic transection treated by, 42
Rupture of pectoralis major in weight lifters: a case report and review of the literature, 219
Rupture of the pectoralis major muscle: a caveat, 282
Rupture of the pectoralis major muscle: a complication, 284

Sacrum, morbidity following isolated fractures of the, 379
Salmonella osteomyelitis following a greenstick fracture of the radius, subacute, 277
Salter-Harris type III fracture of the proximal humeral physis, 453
Scalp wounds. an alternative to suture, 375
Scaphoid, isolated dislocation of the, 405
Scaphoid, ^{99m}Tc MPD bone scanning of the clinical carpal, 14
Scaphoid: a rational approach to diagnosis, the suspected fracture of the, 149
Screw fixation of odontoid fractures: Preliminary report, 139
Self-decapitation: a case report, an attempt at, 115
Sepsis and death following injury, an outcome predictive score for, 263
Shooting incident, the Hungerford, 313
Significance of arthroscopy and examination under anaesthesia in the diagnosis of fresh traumatic haemarthrosis of the knee joint, 21
Silastic foam in injured patients, 121
Ski injuries, the significance of flake fractures, 79
Spinal injury following dural decompression, long-term follow-up of six patients with acute, 397
Spleen after closed abdomonal injury, pseudocyst of the, 297
Spontaneous rupture of tendons in dialysis and renal transplant patients, 86
Sportsmen with severe anterolateral instability of the knee, early osteoarthritis in young, 247
Sternum, intradmedullary fixation of fracture of the, 128
Subacute Salmonella osteomyelitis following a greenstick fracture of the radius, 277
Subtalar joint: a report of two cases irreducible dislocation of the, 447
Subtrochanteric fractures of the femur – an analysis of the results of operative and non-operative management, 169
Suicide by jumping from a height, injuries in attempted, 371
Suture, scalp wounds. an alternative to, 375
Swelling a useful sign in injury of the cervical spine?, is prevertebral soft tissue, 177

Talar rotation: an anatomical study, the role of the anterior tibio-fibular ligament in, 62
Talus following apparently minor ankle trauma: a case report, avascular necrosis of the, 213
^{99m}Tc MDP bone scanning of the clinical carpal scaphoid, 14
Tendon following a hyperflexion injury, 'A pulled muscle' Partial avulsion of the extensor indicis proprius, 127
Tendons in dialysis and renal transplant patients, spontaneous rupture of, 86
The AO tubular external fixator in the treatment of open fractures and infected non-unions of the shaft of the femur, 415
The Hungerford shooting incident, 313
The long-term outcome following Darrach's procedure for complications of fractures of the distal radius, 318
The outcome of fractures of the distal radius in young adults, 97
The plica syndrome, 350
The role of the anterior tibio-fibular ligament in talar rotation: an anatomical study, 62
The suspected fracture of the scaphoid: a rational approach to diagnosis, 149
The timing of surgery for intertrochanteric femoral fractures, 244
The use of fibrin adhesive in the repair of chondral and osteochondral injuries, 267
The use of Zickel supracondylar nails in the presence of a cemented hip prosthesis, 452
Thoracolumbar spine chylothorax following fracture of the, 363
Thrombosis following a fracture of the neck of the humerus, axillary artery, 45
Tibia without fracture, rotational dispacement of the lower distal epiphysis of the, 209
Tibia: a study based on 19 cases, pilon fractures of the, 109
Tibia: clinical experience of a new device, external fixation of fractures of the, 73
Tibia: sense or nonesense?, internal stabilization after external fixation of fractures of the, 432
Tibial plateau in Nottingham, fractures of the, 324
Tibio-fibular ligament in talar rotation: an anatomical study, the role of the anterior, 62
Traction injuries to the brachial artery caused by power take-off mechanisms, 289
Transfer of patients to a fracture table, a technique for, 33
Transverse divergent dislocation of the elbow, 279
Traumatic diaphragmatic hernia: an unusual presentation, 292
Treatment of acromioclavicular disruptions: trial of a simple surgical approach, 159
Treatment of femoral shortening after medullary nailing, 35
Treatment of fractures of the medial epicondyle of the humerus, 342
Trigeminal pain due to whiplash injury, 366

Ulna, bilateral stress fractures of the, 360
Ulnar artery aneurysms after injury mimicking acute infection in the hand, 402
Undisplaced fracture of the neck of the femur: results of treatment of 100 patients treated by single Watson–Jones nail fixation, 93
Unusual open injury of multiple metacarpophalangeal joints, 339

Vascular injury in children with supracondylar humerus fracture, diagnosis of, 11
Vertebrae by Williams plates with reference to late kyphosis, operative fixation of fractures of the thoracic and lumbar, 153
Vertebrae in a schoolboy, Fracture–dislocation of the first thoracic on the second thoracic, 450
Vertical intercondylar dislocation of the patella, 281
Volar compartment syndrome of the forearm secondary to fractures of the distal radius, acute, 101

War surgery and wounds presenting after 3 days on the border of Afghanistan, an experience of, 259
Weightlifing injury, an unusual, 446
'Whiplash injuries' of the neck: a retrospective study, 393
Whiplash injury, trigeminal pain due to, 366
Why do children break their arms?, 9

Zickel supracondylar fixation device, fractures of the distal femur: The role of the, 410
Zickel supracondylar nails in the presence of a cemented hip prosthesis, the use of, 452
